ELEVATE EVERY DETAIL.

2026 CATALOG

Bravura®

ELEVATE EVERY DETAIL.

For over 20 Years Bravura has been enhancing and elevating Residential Decorative Door Hardware. It begins with solid brass, formed through fire and shaped into classic or modern designs using olde world techniques, hand craftsmanship and modern technology. It doesn't just stop with the artist creating door art. To enhance not only your design appreciation and years of performance, our engineers design in precision and features to make it a perfect and simple installation for the novice and speed for the professional craftsman - Lasting Beauty, Perfect, Fast and Easy Installation.

Bravura Precision Alignment System (PAS)

Speed for the Professional
Confidence for the Novice.

Screw Sleeves nest into each other for perfect alignment.

- No fishing for threads or post to tighten into as the screw threads are completely aligned for assembly.
- Significant increase in speed of assembly while preventing cross-threading or stripping screws from bad alignment.

Square Latch Alignment Posts position the assembly onto the latch for perfect assembly alignment, creating clean lines for vertical and horizontal edged escutcheons

Bravura Precision Alignment System is unique to the industry as it is built into the lock itself. No loose parts to be forgotten in the components and its solid brass casting is part of the lock. Designed with precision and fast assembly in mind. Once the latch and spindle are installed:

- Place the Interior Assembly into the door - Spindle into the Assembly and Alignment Posts above and below the latch.
- Slide Exterior Assembly onto spindle and nest Screw Sleeves into each other.
- Place Interior screws into the pre-aligned holes and tighten.
- Fast - Precise - Confident and Complete.

Bravura®

BRAVURA DIFFERENCE

Built for Security

Bravura deadbolt latches have dual concealed roll-pins for added security. Roll pins prevent unwanted entry by sawing or cutting through the bolt. Keeping with the Bravura design, the roll-pins are concealed for a clean, premium look.

Bravura Latches – Built for Strength, Safety, and Simplicity

Bravura Latches deliver unmatched durability with a solid steel body and brass bolts built to last. Designed for ease, they feature a split hub for smooth knob or lever rotation and a reversible bolt for quick, frustration-free installation. Dual-direction rotation eliminates handing on all straight levers, ensuring a perfect fit every time. Safety and accessibility come standard with a self-canceling privacy bolt to prevent accidental lockouts and ADA-friendly push-button privacy.

Mix. Match. Make It Yours

Every lockset is custom-built to your order in just 48 hours. Want a split finish? Done. Prefer a different knob, lever, or escutcheon on each side? No Problem. Have a special application? Just tell us--we'll deliver. We'll even provide visuals so you can see the look before it's on your door.

Quality and Performance

Cycle tested to Grade 2 Standards. Solid Brass Construction - high temperature forging for beauty. Meticulously Hand-Assembled, Quality Components and High Performance Plating for years of mechanical and visual appeal.

NEW! FRENCH ANTIQUE FINISH

Our new FA Finish “French Antique” brings a designer blend of the slowly oxidized beauty of an unlacquered brass with the performance of a plated finish. While an unlacquered brass will age to this visual, it will also keep aging and going to other shades that will vary by sunlight, use, hand oil and overall environment. Bravura French Antique brings you this classic look in a “static state” and in the appropriate design styles to complement your design theme.

| Deadbolts | 2-3/8" | 2-3/4" | Included | Included | Standard | Specify |

* All Handlesets are Single Cylinder 5 Pin SC-1 Keyway.
Custom Keying add \$10 List per Cylinder. For optional items simply specify on your order.

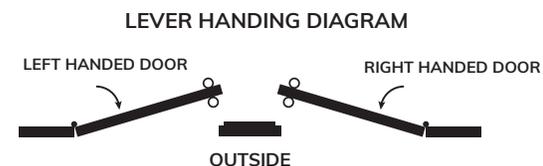

LEVER HANDING - All Curved Leversets Require Handing

PLEASE SPECIFY HANDING FOR ALL Curved LEVERS.

Handing of all doors is determined from the exterior of the room's entrance.

- To order a handleset, handing is still determined from the exterior of the door. We will use that information to determine the handing for the inside of the door.
- If the hinge is on the left side of the door, the door is "left hand" (L).
- If the hinge is on the right side of the door, the door is "right hand" (R).
- To order a handed product, please specify L or R. Only levers that are not straight require handing.
- Interior Locksets- Handing always determined from Outside of room.

Specify For All Handed Levers

KEYING

| SKU | Keying |
|-----|-------------------------------|
| KA | Keyed Alike (KA) |
| CK | Builder/Construction Key (CK) |

HOW TO ORDER

CUSTOM COMBINATIONS

- Don't see the knob/lever/rose combination you desire? Specify it, and we will build what you envision!
- Refer to the Finish Matrix on page 8 for finish compatibility.
- See Bravura Category Tier List Price and Matrix.
- If items you desire do not show finish availability, call for pricing and lead time, as they may be in the process of being added.
- Includes Split Finish and Split Combinations.

HOW TO ORDER OUR LOCK SETS

Select any knob or lever shown on the page and pair with any rose shown on the "part-number builders" on every page for the items you see.

PART NUMBER BUILDER EXAMPLE:

Begin with the desired function (passage, privacy, etc.). Then note the selected knob/lever, rose, function, and finish choice. If you picked a lever that has a curve to it, be sure to let us know the door handing.
